- 9 Customized Training
- 10 Career Guidance

Understand the Modules

AT A GLANCE

LEVEL	Beginners and professionals
MODE	Online and Classroom
FREE DEMO	Free 30-Minute Demo Session
ENQUIRE	+971 50 100 4958 info@dgtrainingland.ae

01 Introduction to Animation

- Understanding Animation and Its Applications
- Types of Animation: 2D and 3D
- Fundamentals of Motion and Timing
- Principles of Animation
- Understanding Animation Workflows

02 Animation Software and Workspace

- Introduction to Animation Tools
- Exploring the Software Interface
- Working with Timelines and Layers
- Managing Animation Projects

SOFTWARE AND TOOLS YOU'LL LEARN

Leading software used by creative professionals worldwide:

- Autodesk Maya
- Adobe After Effects
- Adobe Photoshop
- Adobe Illustrator
- Adobe Premiere Pro
- Industry AI tools for animation workflows

You'll understand how these applications work together throughout a complete animation production pipeline.

Course Modules (continued)

03 2D Animation

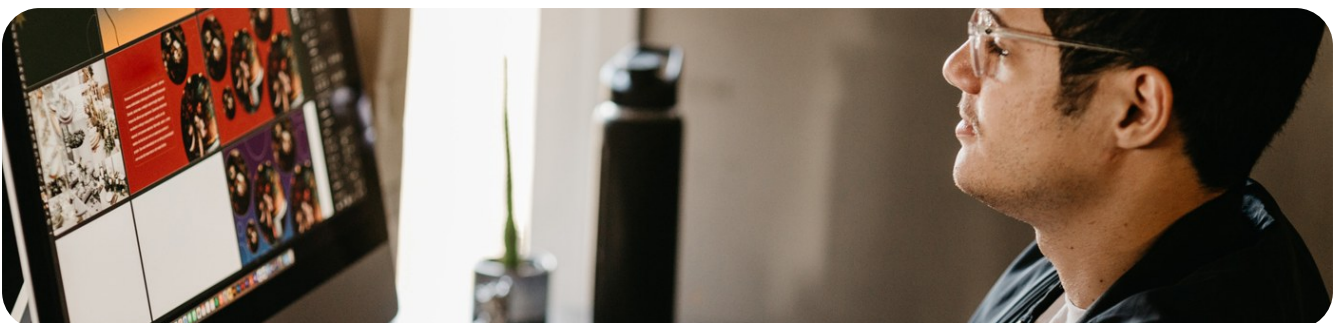

- Understanding 2D Animation Techniques
- Creating and Arranging Graphic Elements
- Working with Keyframes
- Animating Text and Shapes
- Creating Simple Animated Sequences

04 3D Animation

- Introduction to 3D Animation Concepts
- Understanding Objects and 3D Environments
- Exploring 3D Modelling Fundamentals
- Understanding Materials, Lighting, and Cameras
- Introduction to 3D Motion and Animation

05 Character Animation and Motion Graphics

- Introduction to Character Movement
- Understanding Character Rigging Concepts
- Creating Expressive Character Actions
- Designing Motion Graphics
- Animating Titles, Logos, and Visual Elements

Animation Fundamentals

Introduction to Animation

- Understanding the History and Evolution of Animation
- Exploring Different Animation Styles
- Understanding 2D and 3D Animation
- Applications of Animation in Media and Entertainment
- Introduction to Animation Production Workflows

Principles of Animation

- Squash and Stretch
- Anticipation and Follow-Through
- Staging and Composition
- Timing and Spacing
- Slow In and Slow Out
- Arcs and Natural Movement
- Exaggeration and Appeal
- Understanding Weight and Motion

Animation Workspace and Tools

- Exploring the Animation Software Interface
- Creating and Saving Projects
- Understanding Timelines and Frame Rates
- Working with Layers and Objects
- Using Selection and Transformation Tools
- Managing Assets and Project Files

Keyframes and Motion

- Understanding Keyframes
- Setting Starting and Ending Positions
- Creating Movement Between Keyframes
- Adjusting Timing and Spacing
- Using Animation Curves Where Available
- Refining Motion for Smooth Results

Basic Object Animation

- Animating Shapes and Objects
- Creating Moving Text and Graphic Elements
- Controlling Position, Scale, and Rotation
- Working with Simple Transitions
- Building Short Animated Sequences

Bringing Characters and Ideas to Life

2D Animation

- Understanding 2D Animation Workflows
- Creating and Arranging Visual Elements
- Working with Layers and Keyframes
- Animating Characters and Objects
- Creating Simple Character Movements
- Designing Animated Titles and Graphics
- Applying Timing and Motion Principles

3D Modelling and Animation

- Introduction to 3D Objects and Scenes
- Understanding Vertices, Edges, and Faces
- Basic 3D Modelling Concepts
- Applying Materials and Textures
- Setting Up Lighting and Cameras
- Creating Object Movement in 3D Space
- Introduction to 3D Character Animation

Character Animation

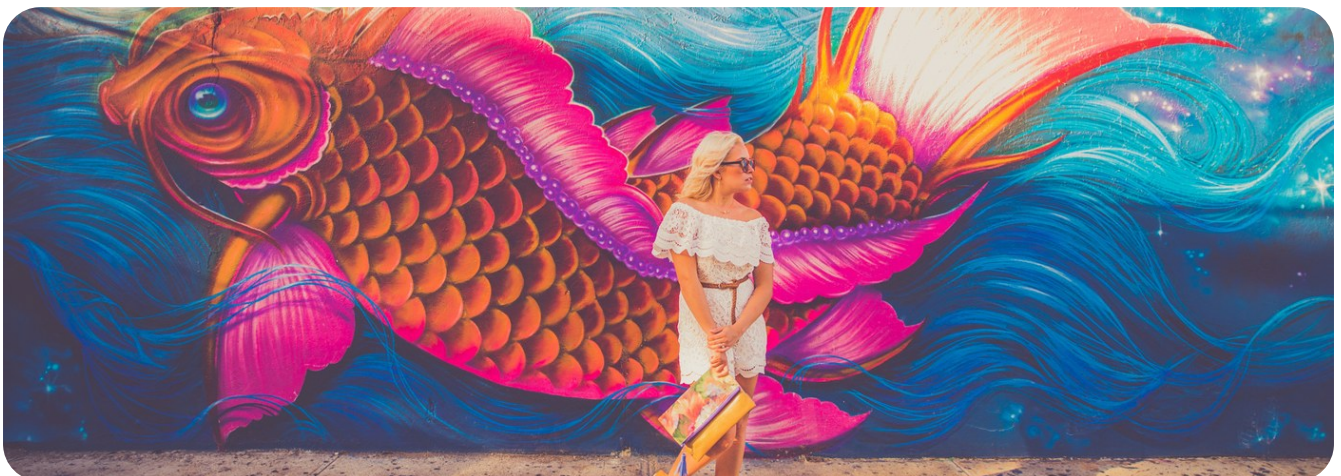

- Understanding Character Design for Animation
- Introduction to Rigging and Controllers
- Creating Basic Character Poses
- Animating Walking and Simple Movements
- Working with Facial Expressions and Gestures
- Improving Movement, Timing, and Performance

Motion Graphics

- Introduction to Motion Graphics
- Animating Text, Shapes, and Icons
- Creating Logo Animations
- Designing Animated Intros and Outros
- Using Transitions and Visual Effects
- Creating Motion Graphics for Digital Content

Visual Effects and Compositing

- Understanding Visual Effects Fundamentals
- Working with Layers and Masks
- Combining Visual Elements
- Creating Simple Visual Effects
- Using Motion and Camera Techniques
- Enhancing Scenes with Lighting and Effects

Benefits of Learning Animation

1

Creative Storytelling

Bring ideas, characters, and stories to life through movement.

2

Visual Communication

Present information through engaging animated visuals.

3

Character Development

Explore character poses, expressions, and movement.

4

Motion Graphics Skills

Create animated titles, logos, transitions, and promotional content.

5

Digital Content Creation

Develop animations for online platforms, videos, and digital campaigns.

6

Visual Effects Knowledge

Understand how visual elements can be combined to enhance scenes.

7

Technical and Creative Growth

Build a foundation in animation software, workflows, and design principles.

8

Portfolio Development

Create practical projects that demonstrate your animation skills.

9

Industry Applications

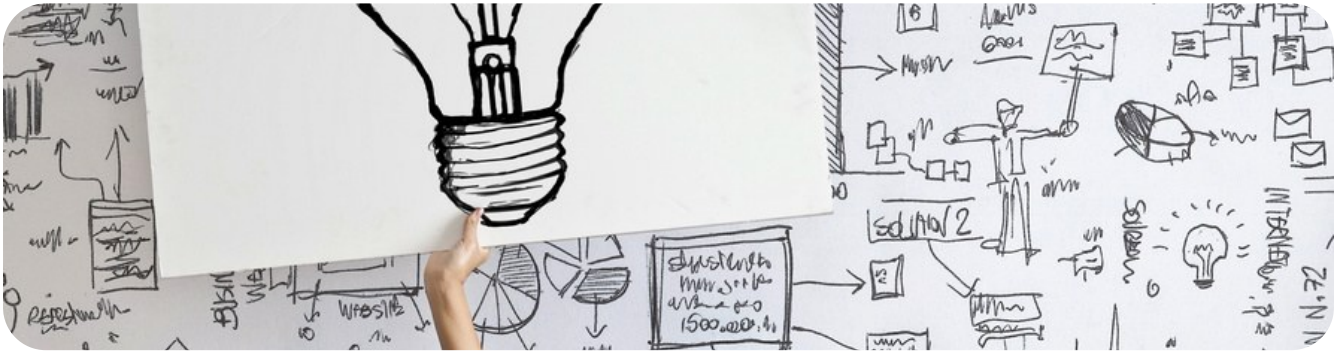

Explore animation applications in film, television, gaming, advertising, and digital media.

10

AI-Enhanced Workflows

Learn how AI-assisted tools can improve productivity while maintaining creative control.

Who Should Join

Students

interested in animation,
multimedia, or graphic design

Creative professionals

looking to upgrade their digital
skills

Graphic designers

wanting to transition into
animation

Content creators and YouTubers

producing engaging videos

Marketing professionals

creating digital campaigns

Architects and product designers

working on visual presentations

Freelancers

expanding their creative service
offerings

Anyone

looking to learn animation in Dubai
without prior experience

Free 30-Minute Demo Session | +971 50 100 4958

Thank You!

Start Your Animation Journey Today

Have a passion for creativity, storytelling, and digital design?

Join the Animation Training Course in Dubai at DG Training and Development Institute to explore animation techniques, develop practical skills, and turn your creative ideas into engaging visual experiences.

Take your first step towards building your animation knowledge and exploring opportunities in the creative industry.
